EMPLOYEES PLANNING FOR RETIREMENT: To make tentative annuity computations, verify creditable service, and process an application for retirement, employees considering retirement should assure that all military and civilian service has been properly documented in their personnel records. Although dates of military service may have been previously recorded and verified, these dates should be reverified so there will be no delay in the receipt of annuity checks. Employees who have had active military service should submit to Kathleen Ellis or Lisa Fowler, Retirement Counselors, Personnel Office Benefits Team (BA-B), copies of their military discharge papers, DD 214, or other documents showing the beginning and ending dates of active service. Employees who do not ensure that all active duty military service is properly documented may experience a delay in the receipt of full annuity payments from OPM upon retirement from civil service. Contact Kathleen Ellis at 867-2002 or Lisa Fowler at 867-1883, Headquarters, Room 2506. (BA-B)

CONFIDENTIAL FINANCIAL DISCLOSURE REPORT (OGE FORM) FILING: Those individuals reporting to a position for which there is a requirement for an initial and annual 450 filing are reminded the INITIAL filing must be completed no later than 30 days after reporting to that position. Forms are available from the Office of Chief Counsel by calling 867-2552. (CC)

MISUSE OF THE NASA INSIGNIA: Use of the computer templates, containing the NASA Insignia, for the production of NASA letterhead in electronic form is not authorized and should be removed from all computer systems. The Associate Administrator for Public Affairs has requested all NASA centers use only the printed NASA letterhead stationery. "The use of computer file NASA Insignias to custom design stationery provides opportunities for image manipulation and standards degradation which will adversely reflect the professional image of the Agency." If not approved for specific applications, electronic images of the NASA Insignia ("meatball") should be removed from computer systems. (IT-D1)

REPORTING EMERGENCIES: To report any emergency on KSC, whether it is fire, security, or medical related, (including possible hazardous commodity exposure); dial 9-1-1 or 867-7911 from a cell phone. For walk-in type first-aid treatment, the Occupational Health Facility is open Monday - Friday from 7 a.m. to 5 p.m., and the Launch Area Clinic is open Monday-Friday 7 a.m. to 3 p.m. Hours other than those, call 9-1-1 for emergencies and/or first aid type treatment. **After normal working hours, the non-emergency medical related assistance will be coordinated through the 9-1-1 operators.** (TA-G)

KSC/CCAFS HEALTH EDUCATION & WELLNESS PROGRAM SEPTEMBER 2004 ENVIRONMENTAL HEALTH PROMOTION:

The month of September is dedicated to environmental health promotion. Two important topics chosen to be highlighted during this month are indoor air quality and hearing loss prevention. In the last several years, a growing body of scientific evidence has indicated that the air within homes and other buildings can be more seriously polluted than outdoor air. Since some research has found that we spend up to 90% of our time indoors, indoor air quality can have a significant impact on health. With regard to noise, repeated exposures to loud noise can lead to permanent, incurable hearing loss or tinnitus. Controlling noise from the workplace and the home whenever possible and using hearing protectors is critical for hearing loss prevention. This month's information packet contains information addressing both of these important environmental health issues. The packet will be posted on the HEWP website: <http://sgs.ksc.nasa.gov/sgs/sites/other/chs/omehs/occmcd/home/index.cfm?page=hew>

Hardcopies of the packet will also be available at all medical and fitness facilities. If you or your department/organization would like to be added to the monthly packet hardcopy distribution list, please call Kris Calderon at 867-3414.

****ENVIRONMENTAL HEALTH PROMOTION TABLE**:** The monthly health education table will be set up at the Logistics cafeteria on September 16th from 11 AM to 1 PM where HEWP staff will display environmental health promotion models and devices and distribute information.

The workshop can be condensed to 30 minutes or extended to more than an hour for optimizing coping and relaxation skills. Example of topics and skills covered in this workshop can include:
